
Spatial 2D contact | synthetic material | physical deformation at 1x scale
load
hold
release
wait
recontact
final hold
withdraw
Contact reaction
Force (N)
Command
Actual tool
Indentation (mm)
Left outward
Right outward
Lateral motion (um)
Time (s)
t = 0.35 s | load
F = 0.256 N
v = 1.51 mm/s
Active contact points: 6
y (mm)
x (mm)
Slow internal strain norm (truth)
